Shipping Agency, Freight Forwarding

### Company Description:

ISS is the world's largest independent Marine Management company. Through Net technology we have been able to transform both the speed and accuracy of the operational, financial and port information provided to our clients by our offices worldwide. In partnership with some of the world's leading operators we have built on the strength of our Inchcape inheritance to develop an innovative menu of integrated solutions designed to 'manage' rather than 'report' key information while at the same time broadening our scope from 'the port' to 'the voyage'.

Manufacturing

### Company Description:

National Fire Fighting manufacturing Co. Ltd. (NAFFCO) based in Jebel Ali, Dubai, is a part of a larger group engaged in the manufacturing of fire fighting, fire protection and fire detection systems in the middle east. NAFFCO was established in 1991 with the most modern and sophisticated production facilities for the manufacture of high quality fire protection equipment and systems. NAFFCO is certified to ISO 9001 Quality System by LPCB U.K. and BVQI. Manufacturing processes are based on a quality control system, that ensures conformity of raw materials, well monitored process control techniques and vigilant final inspection. NAFFCO is backed by a team of 500 employees which includes well experienced engineers and technocrats who are qualified in their respective fields.

NAFFCO's reputation in the world market comes from meeting National and International standards including British Standards (BS), NFPA Standards, SABS standards and other GCC Standards.
