Company Description:

Ihsan General Trading Company

IGTC is a general trading company that is based in Iraq. The company has been successful in many trading activities in three major areas. The first trading division specializes in home appliances including AC's and water coolers, the second deals with pharmaceutical products, and the third trading division deals with office furniture and sanitary ware.

IGTC has positioned itself to respond positively to any demand in the emerging Iraqi market, based on its ability to call upon its network or worldwide contacts to provide superior goods and services.

The main aim of IGTC is to build a relationship with their clients based on management knowledge and certainty in the respective market with a commitment to delivering value products and services at competitive prices.

Future plans for the company include expanding vertically and horizontally to offer an even wider variety of products and services that meet the increasing demands.

The services offered by IGTC are fully encompassing and comprehensive due to the many years of experience in international trading, guaranteeing the timely delivery of a multitude of service to any destination.

R e s p o n d i n g t o D e m a n d s Ihsan General Trading Co. IBC has emerged as a capable general contracting firm. The company has the capacity to take on large and complex projects.

It offers exceptional services in the areas of renovation, construction, civil works, subcontracting, interior design, and real estate development.

IBC has more than 20 years of hands on experience. It is a one-stop-shop for investors' needs. IBC stands out as a company that can plan, execute and deliver to the highest levels of quality
